

# Mythium - Adaverse Purple Paper

100,000,000 \$MYTH Tokens minted Feb 2022

## Tokenomics - Distribution

**Liquidity** - 55% of tokens will be distributed into the ecosystem through two mechanisms. Mining Missions will be available to Fleet holders to obtain \$MYTH from a vending machine sale. A maximum of 40% of tokens will be available through \$MYTH Mining Missions. Tokens will be applied to the DripDropz platform to promote widespread distribution of \$MYTH throughout the Cardano community. A minimum of 15% of \$MYTH will be allocated to the distribution via the DripDropz

**Community Airdrop** - 15% of tokens will be airdropped for free to holders of Adaverse Collector CNFTs. 300 Collector CNFTs were minted and distributed to holders of Adaverse tokens who matched Planets, World and Community assets. Holders of Collector CNFTs will be rewarded with a \$MYTH airdrop following the Fleet sale.

**Fleet Series Sale** - 10% of \$MYTH will be distributed along the sale of spaceships within the Fleet series sale scheduled for February 2022. 10 Million tokens will be allocated and evenly distributed across the 2,900 spaceships included in the sale.

**Founder Allocation** - 10% of tokens will be allocated to the Adaverse Founders and held for a minimum of 12 months after minting of \$MYTH.

**Community Chest** - 10% of \$MYTH will be used to support the development of the Adaverse community driven initiatives including in game rewards. Central uses of the Community Chest will be to reward Discord mods and incentivize the development of Adaverse lore. \$MYTH tokens will be held for in-game rewards or play to earn incentivisation on release of the Adaverse game.
